

Education

The London School of Economics and Political Science | London, UK | Sep 2025 – Sep 2026 (expected)

MSc, Data Science — *Machine Learning, Distributed Computing for Big Data, Deep Learning, Bayesian ML*

St. Lawrence University | Canton, NY | Aug 2021 – May 2025

BSc, Computer Science and Statistics (GPA: 3.95/4.00) — *Algorithm Analysis, Artificial Intelligence, Database Systems, Probability, Mathematical Statistics, Computer Organization, Programming Languages*

Technical Skills

Languages: Python | R | SQL | Java | Dart | C

Data & Cloud: Google Cloud Platform | Apache Spark | BigQuery | PostgreSQL | Docker | Jupyter

Tools & Software: Git | RStudio | Flutter | Tableau | Minitab | Microsoft Office | Google Suite

Relevant Projects

Football Ranking Systems Framework | Nov. 2025 - Present

- Built a four-stage optimisation pipeline (BPTT, ISTA, SAGA, cross-validation) extending canonical Elo with learned team-strength adjustments
- Designed to support match forecasting, pairwise team comparisons, and probabilistic benchmarking against historical odds

Bayesian Inference for Football League Standings | Apr. 2026 - Jun. 2026

- Modeled evolving team strength over four seasons of Women's Super League data via Gibbs sampling and Kalman filtering
- Highlighted persistent data quality and availability gaps in women's football relative to men's leagues, and adapted the modeling approach to account for that uncertainty

Flight Delay Severity Prediction (ORD, JFK, ATL) | Mar. 2026 - May 2026

- Framing flight delay prediction as a four-class severity problem using 3.5M flights from BTS data across three major hub airports
- Built and evaluated six Spark MLlib configurations (logistic regression, decision tree, KNN, bagging, boosting, stacking ensemble) comparing predictive accuracy and distributed scalability metrics

Citi Bike Station Demand Forecasting (NYC) | Mar. 2026 - May 2026

- Developing deep learning models to forecast hourly bike outflow at 700+ NYC stations across ~3M trip records (2021–2023)
- Combined with NYC Open Data on weather, events, and demographics to enhance model inputs and interpretability
- Constructed spatial graph from station coordinates and flow patterns, modeling temporal dependencies with GCN, GAT, STGCN, and graph transformers

Work Experience

Peer Mentor and Teaching Assistant | Department of Mathematics, St. Lawrence University | Jan. 2023 – May 2025

- Delivered one-on-one and group mentoring in mathematics, statistics, and computer science to 10–20 students weekly, translating technical concepts for varied audiences.
- Supported five semesters of undergraduate teaching in Database Systems and Techniques of Computer Science, including SQL instruction, written feedback, and office hours.

Summer Research Fellow | Computer Science Department, St. Lawrence University | Jun. 2024 – Aug. 2024

- Secured competitive fellowship funding to independently scope, design, and deliver a cross-platform application using Flutter and a PostgreSQL relational database.
- Conducted structured research into the effectiveness of generative AI tools in data and development workflows, synthesising findings into a written report.

Water Safety Instructor, Lifeguard & Swim Coach | Rivertown Aquatics | May 2017 – Aug. 2025

- Designed and delivered tailored training programmes for competitive youth swimmers, focusing on stroke technique, endurance; led team to an undefeated dual-meet season and second place at championships.
- Communicated regularly with swimmers, parents, and staff to support athlete development across a wide range of audiences.

Leadership & Activities

NCAA DIII Varsity Athlete — Swimming | St. Lawrence University | Aug. 2021 – May 2025

- Served as team captain senior year and Student-Athlete Advisory Committee representative (2022–23), coordinating team events and advocating for student-athlete interests with athletic department.

Treasurer / Member — Commons College | St. Lawrence University | Mar. 2023 – May 2025

- Managed school budget and organized campus-wide events (50–250+ attendees) as Treasurer of a competitive living and learning community.
